

Exhibit 5  
Receipts of Property

## A WORD ABOUT THE ESTIMATES:

It is very difficult to find a price for many of these items. Many titles are unavailable, and when I say unavailable, I mean unavailable ANYWHERE. I have had these titles on my wishlist/wantlist for a year with no postings. Think: "Not just out of print, but the entire studio making it dissolved, and that was twenty years ago." I bought all of these items either in New/Mint or VG+ condition. I played them maybe once or twice because I didn't want them to get scratched or messed up. I had to estimate what I spent on them because I don't have the receipts anymore—they were destroyed by defendant. I cannot gather them from the web because I don't have those same email/ebay accounts anymore. If I found a copy, whatever the price, I listed the price. It is going to be very difficult to find replacement copies of a lot of these items. I estimated a pillow of \$100 for each out of print item simply because: "I don't know." and I should be able to ask for replacement cost. Items marked with a \* mean I probably paid less than 30 for it. This estimate is honestly the best I can do.
